### WHO SHOULD ATTEND?

Myanmar and foreigners - all level employees who want to improve their problem solving skills through practice and tools.

The more diverse the group of people, from different hierarchical levels, cultures and backgrounds - the more effective and creative solutions will be generated and the better you will understand your uniqueness in the company.

### WHY YOU SHOULD ATTEND

We offer a training based on recurrent feedback from our clients who need proactive employees with a problem solver mindset. The tool we teach to solve the problem is Action Learning used by world's business leaders like IBM, Siemens, Singapore Polytechnic, NASA, to mention just a few.

Having strong problem solving skills can make a huge difference to your career and your company. Problems are at the center of what many people do at work every day. Whether you're solving a problem for a client, supporting those who are solving problems, or discovering new problems to solve you need to know how to tackle them and choose an appropriate tool to solve them.

With tools and practice you can find solutions quickly and effectively. Without it, your solutions may be ineffective, or you'll get stuck and do nothing, with costly consequences for you and your company.
