WOMEN BEAUTY

**Future perfect**  
What skin is **conceivable** when in its most perfect state? Your skin has never been so beautiful, so healthy, so clear as in the **DOCTOR** in your **PORE**.

**THE DOCTOR**  
The Doctor is a multi-tasking serum that works on the skin at a cellular level. It is designed to improve the skin's natural barrier and protect it from environmental damage. It is also designed to improve the skin's texture and tone, and to reduce the appearance of fine lines and wrinkles.

**ANTI-AGEING PLUMPER - CREAM BLUSH - THE JOWL BEATER**  
As we get older, our cheeks can start to dip. An anti-wrinkle diet, sunblock and regular hair care are good first steps, but nothing will lift sagging, loose skin that gives away the signs of age as instantly. By adding warmth with blush, you can show your lift, but that's not getting to the root of the problem. That was until Pur Minerals' newest Cream Blusher, CR90.

The ultimate skin-care cream is a beautiful shade of blush that works on the skin at a cellular level. It is designed to improve the skin's natural barrier and protect it from environmental damage. It is also designed to improve the skin's texture and tone, and to reduce the appearance of fine lines and wrinkles.

**SWEAT BEATER - HAIR BLUZZER - THE FUZZ-FREE DEODORANT**  
A roll-on deodorant that stops your underarms from growing pounds too good to be true, but that's what makes Hair Fuzz Beater so good. It does it by targeting the hair follicle in the skin, the protein responsible for hair growth, resulting in weaker, thinner strands, fewer in growth, and less regrowth. The more you use it, the less you'll have to shave or wax. And of course, it keeps you smelling fresh, too.

## Fabulous

**MULTITASKING SERUM - FLAWLESS FOUNDATION - THE ACE OF BASES**  
Achieving perfect skin can be a struggle, or all at least involve a multi-step skincare routine. An all-in-one multitasking primer, foundation, concealer, highlighter and a dusting of powder - we're convinced our thinking about it, at least if you find that there are one product that does all of the above? How?

**FREE**  
For maximum results in minimum minutes, you need these multitasking marvels.
